**Sunday - May 3<sup>rd</sup>, 2009**

**Location:**  
**Lawrence County High School**  
**Highway 644**  
**Louisa, KY 41230**

## **Classes Offered**

### **Class 1: Firefighter Survival**

*This is an 8 hour class taught on Saturday only.*

This course will emphasize removal of trapped or unconscious firefighters from a burning building and self rescue techniques when the primary escape route is blocked. *This is a required course for all new firefighters effective 7/1/00.* You have spent a number of years practicing on getting victims out of buildings, isn't it time you learned to get yourself out safely? *Full turnout gear and SCBA are required for this course.*

### **Class 2: Firefighter Rescue**

*This is a one day course that will be taught on Sunday only. This is a required course for all new firefighters effective 7/1/01. You must have taken the FF Survival Course before you can take the FF Rescue Course.* This course is designed to teach the firefighter how to rescue victims from a burning structure. Special techniques are used for rescue. This course will test your skills to the limit. *All students need full turnout gear and SCBA for this course.*

### **Class 3: Hard to Get Hours**

This is a two day class covering those hard to get hours you need to obtain your certification. Classes taught will be: Basic Wildland Firefighting (4 hrs.), Aircraft Rescue (2 hrs.), Portable Extinguishers (2 hrs.), Fire Cause & Determination (2 hrs), Ropes (2

hrs.), Building Construction (2 hrs.), and Emergency and Disaster Planning (2 hrs.) *All students need to bring full PPE.*

### **Class 4: Swift Water Rescue**

This is a two day hands on course dedicated to intense training in swift water rescue. Students will be doing exercises in the spillway of Yatesville Lake, so this class is a truly different course for this area. *All students need an approved helmet and flotation device for this course. Wet suits are also recommended.*

### **Class 5: Confined Space**

This is a two day course which will begin by covering 29 CFR 1910.146 Permit Required Confined Spaces and work its way through the equipment and procedures required to execute a rescue from a confined space. Vertical and horizontal spaces will be displayed and made available from which to execute rescues. Air quality monitoring, rope rescue, rescue tripod, basic to advanced rigging, and permitting procedures will be covered as a part of this course. *Students should come prepared with personal protective equipment including gloves, hard hat/helmet, steel-toed shoes, and eye protection.*

### **Class 6: Live Fire Training**

This is a two day class that is never a disappointment. This is a class for the advanced firefighter with two full days of live fire training using acquired structures. Both

days will cover all aspects of fire control following NFPA 1403 and 1500. *All students will need full protective clothing, including SCBA and an extra bottle. You must be clean shaven to participate in this class. Mustaches are permitted. The attached form signed by the Chief of your Department must be presented at Registration at the school before you will be permitted to participate in this class which states that you have met all the NFPA Firefighter I Job Performance requirements. These include Safety, Fire Behavior, Portable Extinguishers, PPE, Ladders, Fire Hose, Appliances, and Streams, Overhaul, Water Supply, Ventilation and Forcible Entry.*

### **Class 7: Auto Extrication - The Basics including new technology and Hybrid Vehicles**

This is a two day course covering vehicle types and design focusing on today's technology and the techniques to extricate a person safely from those vehicles. Students will also take hands-on approach of learning extrication techniques using hand tools, pneumatic tools and airbags. *All students will need full PPE to participate in this course.*

### **Class 8: EMT Continuing Education**

This is a two day course covering 16 hours of the 24 hours required by the state to recertify as an EMT. All students will have both lecture and hands-on training. We would like to thank Air Methods of Kentucky for sponsoring this class.
